

1st Annual Robotics Challenge:

Maze Craze

This competition is for regional schools to allow engineering students to apply their abilities developed in the classroom. This will be achieved through a robotics competition where the students must design and develop an autonomous robot that will navigate through a maze.

When: September 18th, 2010

Time: 12:00pm - 4:00pm

Hosted By: Minnesota State University - Mankato

Sponsored By: Minnesota Center for Engineering and
Manufacturing Excellence
Minnesota State University Learning Communities
